Dear businesses and residents,

In this eighth information letter, we would like to let you know about the current situation, what work will be carried out in the coming period, and how this might affect you.

Work performed

- The stemp frames have been removed;
- The sheet pile walls have been burned off;
- The ground floor has been poured.

Activities in the coming period

In the coming weeks, we will start pouring the concrete structure for the canopy. We will also place the precast concrete elements, brick the sand-lime blocks for the building's structure and start installing some of the stairs. In the week of November 7, we will place the supporting structure for the first floor and in the week of November 14, we will start laying the floors for the first floor.

Structural work phase

We are now working hard at the shell of the building. As always, will do our utmost to keep disruption to a minimum. For example, large vehicles will load and unload inside the construction fences whenever possible.

Considerate constructors

We realise that we are guests in your area, and we will try to prevent any nuisance as much as possible and to keep it to a minimum. As a construction company, we are affiliated with the Stichting Bewuste Bouwers (Considerate Constructors Foundation). We work according to its code of conduct, in which limiting nuisance to the environment is paramount.

Our working hours

According to the building permits, work is allowed from Monday to Friday between 07:00 and 16:00. Materials and equipment may be supplied to and removed from the construction site between 07:00 and 12:00. Occasionally, it is possible that we will have to work outside the permitted times. We will let you know if this is the case and it concerns work that might cause a nuisance.

More information, questions and complaints

For more information about the work on the Heineken Hoek, please go to <https://www.wijbouwen.nu/heineken-hoek>. Here you will find the latest news, construction updates and an overview of the information letters that have been sent. For more information about this letter and any questions/complaints about the work, please send an e-mail to heinekenhoek@jpvaneesteren.nl. You can also speak to our foreman André Wijbenga, who is present on the construction site every day. In the case of an emergency, we can be reached day and night by calling **0900 824 3473** (TBI-Direct).

Kind regards,

Caransa Groep B.V.
